

While attending the Mammoth Lakes Jazz Jubilee, we heard about your daily service from Mammoth, over Tioga Pass, to the Yosemite Valley floor. Fortunately for us, we decided to give it a try on Monday.

We just want you to know what a delightful all-day experience it was and particularly to commend your driver for his excellent skill in maneuvering that big beast in tight places, maintaining a difficult schedule and all the while showing courtesy and concern for his passengers, young and old (like us) alike.

We thank YARTS for a wonderful experience.

Sincerely, Marty, Jeanne, Brent
San Diego, CA

PS: The big red bus was beautiful and quiet. And those huge side windows were really appreciated. For once we could enjoy the great scenery without worrying about the crazies.
